** Cheers to You, Donors and Scholars! **

As the Sons of Norway Foundation is winding down our 50th anniversary year, we would like to publicly celebrate with you, our donors. It is thanks to you that the promising students featured on these pages are able to receive scholarships.

Please know the Foundation is not an institution of applications and procedures. It is a living, breathing organization made up of the wishes of our supporters and the work carried out by our recipients made possible by philanthropic gifts. This combination is so special! In this issue’s Velkommen message, International President Jon Tehven explains the importance of our grant program. Here, you will find opportunities for students to enrich their lives and make their dreams possible. We also have a third program that provides disaster relief to members in need.

Did you know that every single grant and scholarship we offer can only happen through donations? We are a public foundation and are so very grateful for your support. Gifts to the Foundation are important and all lead to the goal of helping someone in some way. Cheers to you for 50 years of success in sharing our Nordic culture across three countries, standing behind our members at a time they need help and for allowing our youth to pursue career paths that will enrich their lives and those of their families.

Femti tusen takk!
Helen Tronvold left funds by a bequest to the Sons of Norway Foundation. Up to three scholarships are available annually for American Sons of Norway students to attend the Norwegian specialty Folk High Schools for a year of concentrated studies.

Anna Haynes is attending the Elverum Folk School in Elverum, Norway, studying Norwegian culture and adventure.

Last year, 32 students were able to help fund their educational dreams through the aid of a Foundation scholarship.

KING OLAV V NORWEGIAN-AMERICAN HERITAGE SCHOLARSHIP
Promotes cultural exchange between Norway and North America.

Stig Roar Lier Habbestad attends the MIT Sloan School of Management pursuing a master’s degree in technology management.

Alexis Hove is a junior at Luther College. She will be attending the University of Oslo in the fall to study art and Nordic studies.
