

Membership & Dues

As a fraternal life insurance company, an individual must be a member of Sons of Norway to purchase an insurance product. Membership is required for both the applicant and the owner, if different. As part of the application process a membership application should be completed and dues sent with the insurance application.

Joining a Lodge

Membership can be with either a local lodge or the central lodge. Local lodges hold events in the community in which they are located. Dues for an individual membership in central lodge is **\$24.00** and for a family is **\$36.00**. Dues for a local lodge are **\$60.00** for an individual and \$95.00 for a family.

Dues are payable yearly. If after the first-year membership is no longer desired, the membership can be dropped. The insurance contract will remain in force regardless if the membership remains active.

Special Dues Payment Offer

If a person buys either a universal life or whole life (including simplified issue whole life products) with a face value of **\$25,000** or more and joins a local lodge, Sons of Norway will pay for one year of individual dues.

This offer is not available on term insurance, guaranteed issue whole life, Viking Voyager or annuities products. Payment covers only one person. Therefore, if the owner and insured are different individuals, dues for the owner are covered for the local lodge but dues must be paid for the insured.
